

Hanover Township Public Schools

61 Highland Avenue, Whippany, NJ 07981

Dear Parents/Guardians,

The Hanover Township Public Schools is excited to introduce Clever, a district implemented website resource to enhance student's login experience. Students will be using a single-sign in process to gain access to all of their digital learning accounts in one central location. With the ease of only one sign in, students in grades K-8 can access most of their digital accounts at school as well as at home.

Clever is compatible with laptops, desktops, Chromebooks and iPads and works best with versions of Chrome, Firefox, Safari, Edge and IE released in 2013 and later. ***We recommend using the most updated version of the Chrome browser for an optimized experience.***

For more detailed instructions on how to update or install Chrome as well as using Clever on different devices, follow this link <https://tinyurl.com/ycceev7y> or go to the Resources for Parents page on the district website.

The Hanover Township Schools Clever URL is <https://clever.com/in/hanover-nj>.

Students in kindergarten through second grade will bring home a Badge (or QR code) which acts as a username and password. This badge is held up to the device's camera.

Students in third through eighth grade will use their District Google username and password.

You may also access most of the digital accounts the traditional way using the specific websites and the student assigned username and password.

As always, we encourage students to use this site, as with all technology, responsibly and follow the Acceptable Use Policy.

If you have any questions, please contact your child's classroom teacher or send an email to websiteadmin@hanovertwpschools.org.

Sincerely,

Hanover Township Public Schools Technology Department
