

Birthdays are an exciting day in your child's life, so it is only right that we celebrate at school, too! On your child's birthday, he or she will hear their name announced over the loudspeaker during morning announcements. We will crown your child as birthday king or queen for the day. The duty of king or queen has a fun perk—they can bring a special show-and-tell item to share with the class and a favorite book that I will read to the class. I also will give the birthday student a small goody bag. The class will present a birthday book of cards created by each classmate, and we will end the day with extra playtime!

If your child has a birthday on a weekend, we will celebrate the day before or after their special day. Children who have a summer birthday will each have their own special birthday celebration day in June!

These special activities will be in lieu of a birthday snack in the classroom, as part of our nutrition policy. Thank you for your understanding!
